### **REASONS FOR ALLOWANCE**

1. These comments are made in addition to the remarks in Applicant's specification and arguments, concerning the manner in which the invention distinguishes from the art discussed therein. The Examiner notes that the prior art does not disclose or suggest the claimed combination including particularly a method of monitoring item shuffling in a post-scan area of a self-service checkout terminal including comparing a first weight decrease to a first weight increase and generating a first match control signal if there is a match. See also the reasons for allowance of parent case 09/071,024. Also note that the term "shuffling" is construed as the term is used in the specification as described at col. 1, line 47-col. 2, line 45, col. 5, line 60-col. 6, line 19, col. 13, lines 30-64 and col. 15, line 47-col. 16, line 14. The term "shuffling" is more specifically called out at col. 1, lines 46-50 and 56, col. 2, lines 1, 10, 27, Col. 5, lines 60-63, col. 6, lines 9-11, col. 13, lines 45-47 and col. 15, lines 58-60. The prior art lacks this structure or anything equivalent to it.

The foregoing is an Examiner's Statement of Reasons for Allowance.
